“Amy is the type of leader who every student and pharmacist should aspire to be. In Ohio, our profession has advanced because of the work she has done, but where others may let their accomplishments go to their head, Amy is a humble and wise teacher. She not only helped me become a pharmacist, but inspired me to grow into a better person. I can’t wait for the day when I have students of my own and can share the knowledge she has imparted to me.”

*E. Michael Murphy
APPE Student, February 2018*

“Don has been a key figure for so many pharmacists throughout the country. He has touched their lives through his caring, concern and humor. When asked who you would think of in regards to key figures in Pharmacy, I would have to, without a doubt, say “Don Bennett.” Don is always looking out for the students, technicians, residents and pharmacists. He has influenced so many professionals with his career counseling, knowledge, professionalism and mentorship. If it were not for Don and his discussions with me on residency, pharmacy practice and professional societies, I would not be where I am today in my career. Don is truly an Icon in Pharmacy.”

*Frank Krivanek, R.Ph., PharmD
Memorial Hospital, Marysville, Ohio*

Amy and Don Bennett OPA Executive Fellowship in Leadership and Association Management

Amy and Don Bennett OPA Executive Fellowship

Developing leaders and potential staff members for the Ohio Pharmacists Association is a critical function, but challenging to achieve. A one-year fellowship experience with the Ohio Pharmacists Association, which is being named for *Amy and Don Bennett* who have dedicated their professional lives to leadership and the professional development of hundreds of Ohio pharmacists and student pharmacists, is key to this endeavor.

This annual, one-year fellowship will provide pharmacists and non-pharmacists with the in-depth education and training needed to understand every aspect of association management. The fellows who complete the program will be excellent candidates for positions in association management in Ohio and elsewhere.

The fellowship will be structured to help the Fellow develop the essential skills needed to manage an association in all of the following areas.

- Association Management and Governance
- Advocacy for the Profession
- Leadership
- Membership Development
- Professional Affairs
- Continuing Education Development
- Communications
- Publication Production
- Media Relations
- Event Coordination

The Fellow will participate in the many meetings of the Association, learning how to coordinate, motivate, and report the actions of each activity. He/she will learn the inner workings of meeting management, including everything from contract negotiation to planning educational programming. The Fellow will actively participate in budget planning and execution, as well as learn about media relations, coordinating press conferences, and preparing for live interviews with the press. The Fellowship is critical to a well-rounded association management background.

We ask for your financial support in creating this program that will both train an individual in association management, while, at the same time, help OPA reach its goals with another staff member. The Fellowship will be a great asset as Ohio pharmacy practice continues to evolve. The Fellow will assist OPA in providing more services to members, better coordinate activities with our seven colleges of pharmacy, and generally move the profession of pharmacy forward. We hope that you will consider making a significant gift to the Fellowship through your tax-deductible contribution to the Ohio Pharmacists Foundation.
