ANNUAL CONFERENCE THEATRE APPLICATION

Breakfast Theatres provide an opportunity to feature exhibitor presentations on the clinical benefit or scientific research relating to the development of an approved pharmaceutical product or featured disease state. These sessions provide a focused, high value live marketing opportunity for exhibitors to reach motivated professionals in a pre-scheduled, private session. Sessions may include information on new uses, combinations, or therapies approved products, updates to clinical guidelines, or considerations for specific disease states. Product Theaters are a forum to gather and discuss issues on patient education, specific products and therapeutic areas with company representatives or your designees. OPA recognizes that Product Theaters will be promotional and may concentrate on a specific product or drug. These sessions are not approved for continuing education credits.
